

**Sunreef SUNREEF 70 POWER–SEA BASS**

- Year: 2009
- Price: \$ 1,490,000
- Location: Fort Lauderdale, FL, United States
- Hull Material: Fiberglass
- Fuel Type: Diesel
- YachtWorld ID: 3661938
- Condition: Used

Almost a year after the launch of the first ever power boat by Sunreef - the 70 Sunreef Power Jambo – an expedition version of a power catamaran, the shipyard is introducing an exclusive version of this model with a modern design, elegant topside, fancy gadgets and state of the art electronics on board.

**Additional Specs, Equipment and Information:**

**Builder/Designer**

Builder: Sunreef

**Dimensions**

LOA: 70 ft	Beam: 30 ft 5 in	Min. Draft: 5 ft 1 in
Max Draft: 5 ft 1 in	Displacement: 98000 lb	Number of Cabins: 5
Number of Heads: 5		

**Engines**

**Engine #1**

Engine Make: Caterpillar	Engine Model: C-18 6-cylinder	Primary Engines: Inboard
Location: Port	Engine Year: 2009	Hours: 2057
Power: 873 hp		

**Engine #2**

Engine Make: Caterpillar	Engine Model: C-18 6-cylinder	Primary Engines: Inboard
Location: Starboard	Engine Year: 2009	Hours: 2060
Power: 873 hp		

## Tankage

Fuel Tanks #: 2

Fuel Tanks Capacity:  
2113.38 gal

Fresh Water Tanks  
Capacity: 356.63 gal

## Boat Highlights

SEA BASS is a semi-owner version with 2 equal master cabins with private en-suite bathrooms in the forward section of the boat ensuring great sea views. Two luxury mid-ship cabins (Port & Starboard) also with en-suite bathrooms featuring large picture windows on the hulls. Rounding out the accommodation is an additional 5th cabin that can be used by the captain and the chef. All cabins are air-conditioned and equipped with LCD screens and DVD.

The galley has been located down and aft to port. It is fitted with all necessary appliances and equipment such as big fridge, freezer, dishwasher, ice maker, electric oven, microwave with grill function, wine cellar and lots of storage!

The voluminous main salon in modern and minimalist design combining dark wenge with Finnish birch and silver grey alcantara seating features a comfortable seating area and a social section with large bar and small fridge and sink. A large 52" HD flat screen TV and Harman-Kardon Hi-Fi system add the perfect finishing touches to the entertainment system. The spacious lower helm station handles all controls and electronics as well as a state of the art Satellite communications system (with advanced tracking and anti-theft device) – another comfortable seating area means the captain need never drive alone. This helm station leads to both owner cabins and to the fly-bridge.

The large 320 sqm aft cockpit sports a generous dining table, wet bar and sun-lounging pad. The wide transom steps and the dive platform makes the whole aft section of the boat an absolute hit and a superb place to be. Up top, the massive fly bridge rivals those of 100 ft motor yachts. With large composite bimini over the helm and seating area with dining table, there is plenty of shade if required and acres of sunbathing space for the perfect tan. A jet ski crane sits discreetly alongside the 4 person Jacuzzi (currently inoperable) and to finish it all off there is a wet bar area with ice maker, sink, fridge and both electric and regular BBQ. The most extravagant feature on the fly is the hydraulically operated diving board off the aft end of the fly bridge.

As for the on-board lighting system, the SEA BASS is equipped with the highly innovative NavyBus electrical distribution system by Navylec enabling control of all interior and exterior lighting via remote control even at a distance of 300 meters. The captain will be able to turn the lights on/off or, to everyone's amazement, activate impressive lighting sequences from the beach in front of the yacht and create a spectacular display of light and colour. NavyBus technology allows the suppression of cables on board whenever possible by combining wired lighting and completely wireless switchboards, sensors and touch screens. The system is based on remote intelligence with no centralization distributed via a communication bus and guarantees reliability, high durability and lower energy consumption. In addition to that, the SEA BASS is fitted with a full selection of underwater halogens. In the cockpit and the saloon, LED discrete lighting creates an intimate ambiance during late evenings and the perfect setting for romantic moments.

Powered by twin Caterpillar 873 HP motors, the biggest engines for this yacht model, the boat has excellent cruising performance with 26 knots maximum speed. The fuel tanks have an increased capacity of 2 x 8000 L making the trans-Atlantic range possible at lower speeds. Double generators provide power for all on-board systems and features.

## **Layout & Accommodations**

Automatic air-conditioning in all cabins and saloon.

Laundry with washing machine and dryer.

Main Saloon

Is a modern, spacious and light area with high volumes and a contrasting finish of Finnish Birch and silver grey Alcantara fabric with a 52" TV and Harman Kardon hi fi.

Large bar area with fridge, sink, serving counter and wine cooler and large sliding door opens onto main entertainment teak deck area.

Well-appointed galley with undercounter lighting views to the side and lots of clever storage good ventilation and climate control.

Upright fridge/freezer

Dual stainless-steel sinks

4 burner Bosch stove with oven

Microwave oven with grill function.

Corian counter tops.

Waste bin below sink.

Under-sink storage.

Large cutlery drawers.

Sliding storage bins.

Large storage cupboards.

Pantry cupboard.

Bottle stowage.

System for securing crockery in dedicated unit.

Ceiling lights and undercounter.

## **Deck & Equipment**

Hydraulic crane on the flybridge.

Industrial size ice maker on flybridge.

Hydraulic dive board

Main Deck

Teak floor.

Large size teak dining table with bench with seating for 10.

Very convenient, safe coamings with stainless steel fairleads and cleats.

Williams 445 turbojet tender.

Electric davits (new motors 2017) and cradle for dingy.

Large locker for keeping ropes tidy in floor.

External marine speakers.

LED down lighting with dimmers.

Bar Fridge.

Stainless steel basin with serving area.

Large seat with cushions.

Fresh water showers on both transoms.

Flybridge

Helming position with instrumentation.

Retractable awning.

Dining table with seating for 8.

Industrial ice maker.

Stainless sink and large serving area.

4 Person Jacuzzi (currently inoperable) with sun pads and seating

Flat screen TV.

Hydraulic crane.

Hobbie tandem sea kayak.

Water skies.

2 x Stand Up paddle boards

Hydraulic dive board from fly bridge

Ground Tackle

CQR primary anchor.

Cushions

Large selection of cushions for:

Forward Sun Deck.

Fly Bride seating area and lounging deck around Spa.

Main deck seating and large lounging area.

300' of Chain.

Danforth secondary anchor.

Quick 3000-watt windlass with remote.

Large selection of warps, mooring lines and fenders.

Electric crane davits and cradle for dingy (new motors 2017).

## **Electronics & Navigation**

52" HD flat screen TV and Harmon Kardon hi-fi system.

Flat screen TV's in all cabins.

Forward facing sonar

High-capacity Watermaker

Inmarsat Satellite Communication system.

Raymarine touch screen GPS chart plotter. One at each bridge station (NEW in 2016).

Raymarine Open Array radar (NEW in 2016).

Raymarine depth sounder.

Furuno Navtex.  
AIS transceiver.  
Forward facing sonar.  
Raymarine ST60 wind instruments.  
Raymarine autopilot.  
KVH satellite communications/TV.  
nmarsat satellite data connection.  
Raymarine dual station VHF.  
Icom M71 waterproof hand-held VHF with charger unit.  
Wi-Fi Bat – Wi-Fi signal booster.

### **Electrical, Power & Plumbing**

High-capacity Watermaker  
LED Down lighting and recessed accent lighting with dimmers and remote control, reading lights, ribbon ceiling lighting and night lighting.  
12 x 220 ah 8-D house batteries. (NEW July 2020)  
4 x 200 ah Mastervolt engine/generator start batteries. (NEW late 2015)  
Starboard Kohler 27kW 60Hz 220v generator - approximately 3990hrs  
Port Kohler 25kW 60Hz 220v generator - approximately 4850hrs  
Dual bow thrusters.  
70' 100amp shore power cord  
2 x 220 ah 4-D batteries for electronics. (NEW July 2020)  
3 x Separate 24v Mastervolt battery chargers for house, (2 x House bank battery chargers NEW July 2020), engine and bow thrusters.  
Standard Caterpillar engine alternators plus additional Mastervolt alternators for house batteries.  
European 220v sockets.  
Mastervolt 24/5000W inverter (NEW May 2020).  
Mastervolt battery monitoring system.  
NavyBus electrical distribution system by Navylec, enabling control of all interior and exterior lighting by remote control, up to a distance of 300m away.  
Climate control  
Webasto C81R 80,000 BTU air conditioning (NEW 2015) with 8 air handlers.  
New spare compressor.  
2 Water heaters.  
Sea Recovery 220L/hr water maker.  
New hydraulic steering motor (July 2020)

### **Engine & Mechanical**

Large Dual generators  
Propeller type: Fixed blade.  
Controls at helm and flybridge.  
Dual Raycor fuel filtration and water separation system for each engine.  
Carefully-designed foam soundproofing and ventilation.  
Well-lit Engine compartments.  
Comprehensive spares.  
Cruising speed – 15 knots  
Maximum speed –24 knots  
Fuel consumption at cruising speed – approx. 220 liters per hour.  
Range @ cruising speed approx. 1000 nautical miles

### Additional Information

Williams 445 turbojet tender with electric davits.

Dual bow thrusters

Safety Equipment

Life jackets.

Safe link Auto GPS EPIRB.

2 x Zodiac Xtreme 8-man life rafts in flush mounts.

General

Large bow lockers with storage shelving.

Bottom antifouled in January 2020
